Notes to the condensed consolidated interim financial statements

1. Reporting entity

Constellation Software Inc. ("Constellation") is a company domiciled in Canada. The address of Constellation's registered office is 20 Adelaide Street East, Suite 1200, Toronto, Ontario, Canada. The condensed consolidated interim financial statements of Constellation as at and for the period ended September 30, 2014 comprise Constellation and its subsidiaries (together referred to as the "Company") and the Company's interest in associates. The Company is engaged principally in the development, installation and customization of software relating to the markets listed below, and in the provision of related professional services and support.

Public Sector:

Public transit operators	Asset management	Municipal systems
Para transit operators	Fleet and facility management	School administration
School transportation	District attorney	Public safety
Non-emergency medical	Taxi dispatch	Healthcare
Ride share	Benefits administration	Rental
Local government	Insurance	Electric utilities
Agri-business	Collections management	Court
Marine asset management	Water utilities	School and special library
Communications		

Private Sector:

Private clubs & daily fee golf courses	Lease management	Window manufacturers
Construction	Winery management	Cabinet manufacturers
Food services	Buy here pay here dealers	Made-to-order manufacturers
Health clubs	RV and marine dealers	Window and other dealers
Moving and storage	Pulp & paper manufacturers	Multi-carrier shipping
Metal service centers	Real estate brokers and agents	Supply chain optimization
Attractions	Outdoor equipment dealers	Multi-channel distribution
Leisure centers	Pharmaceutical and biotech manufacturers	Wholesale distribution
Education	Healthcare electronic medical records	Third party logistics warehouse management systems
Radiology & laboratory information systems	Homebuilders	Retail management and distribution
Product licensing	Event management	Association management
Tire distribution	Salons and spas	Public housing authorities
Housing finance agencies	Municipal treasury & debt systems	Real estate brokers and agents
Tour operators	Auto clubs	Home and community care
Long-term care		

2. Basis of presentation

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and using the accounting policies disclosed in Note 3 of the Company's 2013 annual consolidated financial statements.

The policies applied in these condensed consolidated interim financial statements are based on International Financial Reporting Standards (IFRS), issued and outstanding as of October 30, 2014, the date the Board of Directors approved the condensed consolidated interim financial statements.

These condensed consolidated interim financial statements should be read in conjunction with the Company's 2013 annual consolidated financial statements.

(b) Basis of measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for available-for-sale financial assets, certain assets and liabilities initially recognized in connection with business combinations, derivative financial instruments and contingent consideration related to business acquisitions, which are measured at their estimated fair value.

(c) Functional and presentation of currency

The condensed consolidated interim financial statements are presented in U.S. dollars, which is Constellation's functional currency.

(d) Use of estimates and judgements

The preparation of the condensed consolidated interim financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses, consistent with those disclosed in the 2013 annual consolidated financial statements. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Estimates are based on historical experience and other assumptions that are considered reasonable in the circumstances. The actual amount or values may vary in certain instances from the assumptions and estimates made. Changes will be recorded, with corresponding effect in profit or loss, when, and if, better information is obtained.

3. Significant accounting policies

Except as disclosed below, the significant accounting policies used in preparing these condensed consolidated interim financial statements are unchanged from those disclosed in the Company's 2013 annual consolidated financial statements, and have been applied consistently to all periods presented in these condensed consolidated interim financial statements.

The accounting policies have been applied consistently by the Company's subsidiaries.

(a) New standards and interpretations adopted

Amendments to IAS 32, Offsetting Financial Assets and Liabilities

IAS 32 has been amended to include additional presentation requirements for financial assets and liabilities that can be offset in the statement of financial position. The Company adopted the amendments to IAS 32 in its consolidated financial statements for the annual period beginning January 1, 2014. The adoption of the amendments did not have a material impact on the financial statements.

Recoverable Amount Disclosures for Non-Financial Assets (Amendments to IAS 36)

In May 2013, the IASB issued Recoverable Amount Disclosures for Non-Financial Assets (Amendments to IAS 36). The amendments apply retrospectively for annual periods beginning on or after January 1, 2014. The IASB has issued amendments to reverse the unintended requirement in IFRS 13 Fair Value Measurement to disclose the recoverable amount of every cash-generating unit to which significant goodwill or indefinite-lived intangible assets have been allocated. Under the amendments, recoverable amount is required to be disclosed only when an impairment loss has been recognized or reversed. The Company adopted the amendments in its financial statements for the annual period beginning on January 1, 2014. As the amendments impact certain disclosure requirements only, the adoption of the amendments did not have a material impact on the financial statements.

(b) New standards and interpretations not yet adopted

IFRS 9 Financial Instruments

IFRS 9 replaces the guidance in IAS 39 Financial Instruments: Recognition and Measurement, on the classification and measurement of financial assets. The Standard eliminates the existing IAS 39 categories of held to maturity, available-for-sale and loans and receivable.

Financial assets will be classified into one of two categories on initial recognition:

- financial assets measured at amortized cost; or
- financial assets measured at fair value.

Gains and losses on remeasurement of financial assets measured at fair value will be recognized in profit or loss, except that for an investment in an equity instrument which is not held-for-trading, IFRS 9 provides, on initial recognition, an irrevocable election to present all fair value changes from the investment in other comprehensive income (OCI). The election is available on an individual share-by-share basis. Amounts presented in OCI will not be reclassified to profit or loss at a later date. IFRS 9 also includes a new general hedge accounting standard which will align hedge accounting more closely with risk management.

The standard has a mandatory effective date for annual periods beginning on or after January 1, 2018 with early adoption permitted. We are assessing the impact of this standard on our consolidated financial statements.

Annual Improvements to IFRS

In December 2013, the IASB issued narrow-scope amendments to a total of nine standards. Most of the amendments will apply prospectively for annual periods beginning on or after July 1, 2014. The Company intends to apply these amendments in its financial statements for the annual periods beginning on January 1, 2015. The extent of the impact of adoption of the amendments has not yet been determined.

IFRS 15 Revenue from Contracts with Customers

On May 28, 2014 the IASB issued IFRS 15 Revenue from Contracts with Customers. The new standard is effective for fiscal years beginning on or after January 1, 2017 and is available for early adoption. The standard contains a single model that applies to contracts with customers. The Company intends to adopt IFRS 15 in its financial statements for the annual period beginning on January 1, 2017. The extent of the impact of adoption of the standard has not yet been determined.

4. Business acquisitions

(a) During the nine month period ended September 30, 2014, the Company completed fifteen acquisitions for aggregate cash consideration of $45,542 plus cash holdbacks of $10,629 and contingent consideration with an estimated fair value of $7,729 resulting in total consideration of $63,900. The contingent consideration is payable on the achievement of certain financial targets in the post-acquisition period. The obligation for contingent consideration for acquisitions during the period ended September 30, 2014 has been recorded at its estimated fair value at the various acquisition dates. The estimated fair value of the applicable contingent consideration is calculated using the weighted probability of the expected contingent consideration to be paid and inclusion of a discount rate as appropriate. As part of these arrangements, which include both maximum, or capped, and unlimited contingent consideration amounts, the estimated increase to the initial consideration is not expected to exceed a maximum of $7,729. Aggregate contingent consideration of $27,533 (December 31, 2013 - $18,452) has been reported in the statement of financial position at its estimated fair value relating to applicable acquisitions completed in the current and prior periods. Changes made to the estimated fair value of contingent consideration are included in other expenses, net in the condensed consolidated interim statements of income. An expense of $368 and $636 has been recorded for the three and nine months ended September 30, 2014, as a result of such changes (charge and recovery of $11 and $21 for the three and nine months ended September 30, 2013).

There were no acquisitions during the period that were deemed to be individually significant. Of the fifteen acquisitions, the Company acquired 100% of the shares of nine businesses and acquired the net assets of the other six businesses. The cash holdbacks are payable over a two year period and are adjusted, as necessary, for such items as working capital or net tangible asset assessments, as defined in the agreements, and claims under the respective representations and warranties of the purchase and sale agreements.

The acquisitions during the nine month period include software companies catering to the following markets; fleet and facility management, local government, health clubs, asset management, para transit operators, metal service centres, tour operators, auto clubs, home and community care, long-term care, public transit operators, salons and spas, and communications all of which are software businesses similar to existing businesses operated by the Company. The acquisitions have been accounted for using the acquisition method with the results of operations included in these condensed consolidated interim financial statements from the date of each acquisition. Eight of the acquisitions have been included in the Public reportable segment and seven have been included in the Private reportable segment.

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

The goodwill recognized in connection with these acquisitions is primarily attributable to the application of Constellation's best practices to improve the operations of the companies acquired, synergies with existing businesses of Constellation, and other intangibles that do not qualify for separate recognition including assembled workforce. Goodwill in the amount of $389 is expected to be deductible for income tax purposes.

The gross contractual amounts of acquired receivables was $16,121; however the Company has recorded an allowance of $400 as part of the acquisition accounting to reflect contractual cash flows that are not expected to be collected.

Due to the complexity and timing of certain acquisitions made, the Company is in the process of determining and finalizing the estimated fair value of the net assets acquired as part of the acquisitions closed during 2014 and the last quarter of 2013. The amounts determined on a provisional basis generally relate to net asset assessments and measurement of the assumed liabilities, including acquired contract liabilities. The cash consideration associated with these provisional estimates totals $433,595.

The aggregate impact of acquisition accounting applied in connection with business acquisitions in the nine month period ended September 30, 2014 is as follows:

	Public Sector	Private Sector	Consolidated
Assets acquired:			
Cash	$ 5,188	$ 2,058	$ 7,246
Accounts receivable	11,890	3,831	15,721
Other current assets	4,225	1,325	5,550
Property and equipment	1,034	885	1,919
Other non-current assets	165	-	165
Deferred income taxes	846	-	846
Technology assets	17,078	19,573	36,651
Customer assets	8,597	9,504	18,101
	49,023	37,176	86,199
Liabilities assumed:			
Current liabilities	3,544	3,613	7,157
Deferred revenue	9,325	5,641	14,966
Deferred income taxes	2,200	4,371	6,571
Other non-current liabilities	89	215	304
	15,158	13,840	28,998
Goodwill	1,382	5,317	6,699
Total consideration	**$ 35,247**	**$ 28,653**	**$ 63,900**

(b) The 2014 business acquisitions had no significant impact on revenues or net income for the nine months ended September 30, 2014. There was also no significant impact on the Company's revenues or net income on a pro-forma basis for the nine months ended September 30, 2014.

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

5. Other assets and other liabilities

7. Bank indebtedness

On March 13, 2012, the Company entered into a new revolving credit facility with a syndicate of Canadian chartered banks and U.S. banks in the amount of $300,000 (December 31, 2013- $300,000). The revolving credit facility bears a variable interest rate and is due in full on February 29, 2016 with no fixed repayments required over the term to maturity. Interest rates are calculated at prime or LIBOR plus interest rate spreads based on a leverage table. The credit facility is collateralized by substantially all of the Company's assets including the assets of the majority of the Company's material subsidiaries. The credit facility contains standard events of default which if not remedied within a cure period would trigger the repayment of any outstanding balance. Certain other subsidiaries also guarantee this facility. The facility is available for acquisitions, working capital needs, and other general corporate purposes and for the needs of the Company's subsidiaries until 2016. As at September 30, 2014, $56,800 (December 31, 2013 – $149,200) had been drawn from this credit facility, and letters of credit totaling $14,019 (December 31, 2013 - $5,000) were issued, which limits the borrowing capacity on a dollar-for-dollar basis. Transaction costs associated with the line-of-credit were included as part of the carrying amount of the liability and are being amortized through profit or loss using the effective interest rate method. Amortized costs recognized in the three and nine month period ended September 30, 2014 relating to this line-of-credit amounted to $129 and $387 respectively (September 30, 2013 - $129 and $387 respectively). As at September 30, 2014, the carrying amount of such costs totaling $738 (December 31, 2013 - $1,125) has been classified as part of bank indebtedness in the condensed consolidated interim statement of financial position.

On December 6, 2013, the Company amended the credit facility to facilitate the acquisition of Total Specific Solutions ("TSS"). A new one year $350,000 term facility was added solely for the purposes of funding the TSS acquisition and related expenses (the "TSS Acquisition Facility"). The TSS Acquisition Facility is non-amortizing, bears interest at a rate calculated at prime or LIBOR plus interest rate spreads based on a leverage table consistent with the spreads applicable to Constellation's revolving credit facility, and matures on December 31, 2014. The TSS Acquisition Facility is subject to the existing security requirements of Constellation revolving credit facility, which includes security covering the majority of Constellation's and its subsidiaries' (other than CNH and its subsidiaries) present and future real and personal property, assets and undertakings, and is subject to various debt covenants. As at September 30, 2014, approximately $144,976 remains outstanding from the TSS Acquisition Facility. Subsequent to period-end, the Company issued debentures and the proceeds from this issuance were used by the Company to pay down $57,763 of the TSS Acquisition Facility (note 17).

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

On June 24, 2014 Constellation Software Netherlands Holding Cooperatief U.A. ("CNH"), a subsidiary of Constellation and the indirect owner of 100% of TSS, entered into a €150,000 term and €10,000 multicurrency revolving credit facility (the "CNH Facility") with a number of European and North American financial institutions. The CNH Facility bears interest at a rate calculated at EURIBOR plus interest rate spreads based on a leverage table. The CNH Facility is collateralized by substantially all of the assets owned by CNH and its subsidiaries which includes substantially all of the assets of TSS and its subsidiaries. The CNH Facility contains standard events of default which if not remedied within a cure period would trigger the repayment of any outstanding balance. On June 24, 2014, €130,000 was drawn on the term component of the CNH Facility and used to repay a portion of the TSS Acquisition Facility. €30,000 must be repaid in instalments over the next six years, and €100,000 is non-amortizing and due in seven years. The remaining €20,000 term component of the CNH Facility is currently available and if drawn must be repaid in five equal instalments starting on June 24, 2018. As at September 30, 2014 no amounts had been drawn on the €10,000 multicurrency revolving component of the CNH Facility. The revolving component of the CNH Facility is available for acquisitions, working capital needs, and other general corporate purposes until June 24, 2020. Transaction costs associated with the CNH Facility have been included as part of the carrying amount of the liability and are being amortized through profit or loss using the effective interest rate method. Amortized costs recognized in the three and nine month period ended September 30, 2014 relating to this facility amounted to $278. As at September 30, 2014, the carrying amount of such costs relating to this facility totalling approximately $6,402 (€5,039) has been classified as part of bank indebtedness in the condensed consolidated interim statement of financial position.

The CNH Facility and Constellation's other credit facilities are independent of each other. The CNH Facility is not guaranteed by Constellation or its subsidiaries nor is Constellation or its subsidiaries subject to the terms of the CNH Facility other than, in each case, CNH and its subsidiaries. Similarly, CNH and its subsidiaries did not guarantee Constellation's other credit facilities and are not subject to the provisions thereof. Constellation's credit facilities impose limitations on the aggregate amount of investment that Constellation may make in CNH and its subsidiaries and the financial results of CNH and its subsidiaries are not included for the purposes of determining compliance by Constellation with the financial covenants in Constellation's other credit facilities. The CNH Facility imposes limitations on the amount of distributions that CNH and its subsidiaries may make to Constellation.

On June 24, 2014, the Company further amended the Constellation credit facility to accommodate the CNH financing. The $350,000 TSS Acquisition Facility was reduced to a $150,000 term facility to reflect the payment received from the proceeds of the CNH Facility.

8. Provisions

At January 1, 2014	$	11,959
Reversal		(2,170)
Provisions recorded during the period		10,101
Provisions used during the period		(10,216)
Effect of movements in foreign exchange and other		(472)
At September 30, 2014	$	9,202

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

The provisions balance is comprised of various individual provisions for onerous contracts and other estimated liabilities of the Company of uncertain timing or amount.

9. Income taxes

Income tax expense is recognized on management's best estimate of the actual income tax rate for the interim period applied to the pre-tax income of the interim period for each entity in the consolidated group. As a result of foreign exchange fluctuations, acquisitions and ongoing changes due to intercompany transactions amongst entities operating in different jurisdictions, the Company has determined that a reasonable estimate of a weighted average annual tax rate cannot be determined on a consolidated basis. The Company's consolidated effective tax rate in respect of continuing operations for the three and nine months ended September 30, 2014 was 33% and 35% respectively (three and nine months ended September 30, 2013 was 11% and 21% respectively).

10. Capital and other components of equity

	Common Shares	
	Number	Amount
December 31, 2013	21,191,530	$ 99,283
September 30, 2014	21,191,530	$ 99,283

Dividends and other distributions to shareholders

During the nine months ended September 30, 2014 the Board of Directors approved and the Company declared dividends of $3.00 per common share. The dividend declared in the quarter ended September 30, 2014 representing $21,192 was paid and settled on October 3, 2014. The dividend declared in the quarter ended September 30, 2013 representing $21,192 was paid and settled on October 3, 2013.

A dividend of $1.00 per share representing $21,192 was accrued as at December 31, 2013 and subsequently paid and settled on January 3, 2014.

On August 8, 2014, the Company completed a rights offering pursuant to which existing holders of common shares of the Company were entitled to purchase up to C$100,000 aggregate principal amount of unsecured subordinated floating rate debentures of the Company as of the close of business on August 21, 2014 (see note 17 for further details on the terms of the debentures subsequently issued on October 1, 2014). The Company estimated the fair value of these rights to be $4,759 and recorded a distribution to shareholders for this amount.

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

11. Finance and other income and finance costs

	Three months ended September 30, 2014	Three months ended September 30, 2013	Nine months ended September 30, 2014	Nine months ended September 30, 2013
Gain on sale of available-for-sale financial assets transferred from other comprehensive income	$ -	$ -	$ (574)	$ -
Gain on sale of non-current assets	(230)	-	(230)	(369)
Other finance income	(623)	(375)	(1,903)	(506)
Finance income	$ (853)	$ (375)	$ (2,707)	$ (875)
Interest expense on bank indebtedness	$ 3,192	$ 920	$ 8,131	$ 2,386
Amortization of debt related transaction costs	407	129	1,009	387
Other finance costs	460	656	1,761	2,199
Finance costs	$ 4,059	$ 1,705	$ 10,901	$ 4,972

The Company enters into forward foreign exchange contracts from time to time with the objective of mitigating volatility in profit or loss in respect of financial liabilities. During the period, the Company did not purchase any additional forward foreign exchange contracts. The Company had one forward contract outstanding as at December 31, 2013 with a value of $19,343 and the contract was settled on January 3, 2014.

During the period, the Company entered into a floating-to-fixed interest rate swap to manage its cash-flow interest rate risk associated with the CNH Facility. The notional principal amount of the outstanding floating to fixed interest rate swap contract at September 30, 2014 was €130,000. The fair value of the interest rate swap contract at September 30, 2014 was nominal.

12. Earnings per share

Basic and diluted earnings per share

Earnings per share				
Basic and diluted	$ 1.51	$ 1.05	$ 3.01	$ 2.39

13. Financial instruments

Fair values versus carrying amounts

The carrying values of accounts receivable, accounts payable, accrued liabilities, the majority of acquisition holdbacks and bank debt, approximate their fair values due to the short-term nature of these instruments. Bank debt is subject to market interest rates.

The Company has transaction costs associated with its current line of credit. As a result at September 30, 2014, the fair value of the line of credit is $56,800 and the carrying value is $56,062. (December 31, 2013: fair value of $149,200, carrying value of $148,075). The fair value and the carrying value of the TSS Acquisition Facility is $144,976 (December 31, 2013: fair value of $329,438 and carrying value of $329,095). The fair value of the CNH Facility is $164,918 and the carrying value is $158,516.

The fair values of available-for-sale financial assets, being equity investments, at the reporting date are determined by the quoted market values for each investment.

Fair value hierarchy

The table below analyzes financial instruments carried at fair value, by valuation method.

- level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- level 2 inputs are inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly (i.e. prices) or indirectly (i.e. derived from prices); and
- level 3 inputs are inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

In the table below, the Company has segregated all financial assets and liabilities that are measured at fair value into the most appropriate level within the fair value hierarchy based on the inputs used to determine the fair value at the measurement date.

Financial assets and financial liabilities measured at fair value as at September 30, 2014 and December 31, 2013 in the consolidated financial statements are summarized below. The Company has no additional financial liabilities measured at fair value after initial recognition other than those recognized in connection with business combinations.

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

	September 30, 2014				December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Total**	**Level 1**	**Level 2**	**Level 3**	**Total**
Assets								
Equity securities	$ -	$ -	$ -	$ -	$ 780	$ -	$ -	$ 780
	-	**-**	**-**	**-**	**780**	**-**	**-**	**780**
Liabilities								
Contingent consideration	$ -	$ -	$ 27,533	$ 27,533	$ -	$ -	$ 18,452	$ 18,452
Interest rate swap contract	-	-	-	-	-	-	-	-
Foreign forward exchange contract	-	-	-	-	-	179	-	179
	-	**-**	**27,533**	**27,533**	**-**	**179**	**18,452**	**18,631**

There were no transfers of fair value measurement between level 1, 2 and 3 of the fair value hierarchy in the periods ended September 30, 2014 and 2013.

The following table shows a reconciliation from the beginning balances to the ending balances for fair value measurements in level 3 of the fair value hierarchy.

Balance at January 1, 2014	18,452
Increase from business acquisitions	9,247
Cash payments	(1,179)
Charges through profit or loss	964
Foreign exchange	49
Balance at September 30, 2014	27,533

Estimates of the fair value of contingent consideration is performed by the Company on a quarterly basis. Key unobservable inputs include revenue growth rates and the discount rates applied (8% to 11%). The estimated fair value increases as the annual growth rate increases and as the discount rate decreases and vice versa.

14. Operating segments

Segment information is presented in respect of the Company's business. Except as described below, the accounting policies of the segments are the same as those described in the significant accounting policies section of these condensed consolidated interim financial statements.

Reportable segments

The Company has six operating segments, referred to as Operating Groups by the Company, being Volaris, Harris, Total Specific Solutions, Jonas, Homebuilder, and Vela. The operating segments are aggregated into two reportable segments in accordance with IFRS 8 Operating Segments. The Company's Public Sector segment develops and distributes software solutions primarily to government and government-related customers. The Company's Private Sector segment develops and distributes software solutions primarily to commercial customers.

During fiscal 2013, the Company had seven operating segments. During 2014, two of the Company's operating groups (Friedman and Emphasys) have been combined to form a new operating segment, Vela. During 2014, the operating results of Friedman and Emphasys are reviewed by the Company's President and Chairman of the Board of Directors as a single operating group to make decisions about resources to be allocated to that operating group and assessing its performance. Vela has been included in the Private Sector. Comparatives have been restated to reflect this change.

The determination that the Company has two reportable segments is based primarily on the assessment that differences in economic cycles and procedures for securing contracts between our governmental clients and commercial, or private sector clients, are significant, thus warranting distinct segmented disclosures.

Corporate head office operating expenses are allocated to the Company's segments based on the segment's percentage of total consolidated revenue for the allocation period.

Intercompany expenses (income) represent Constellation head office management fees and intercompany interest charged on related borrowings to the reportable segments.

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

15. Contingencies

In the normal course of operations, the Company is subject to litigation and claims from time to time. The Company may also be subject to lawsuits, investigations and other claims, including environmental, labour, product, customer disputes and other matters. Management believes that adequate provisions have been recorded in the accounts where required. Although it is not always possible to estimate the extent of potential costs, if any, management believes that the ultimate resolution of such contingencies will not have a material adverse impact on the results of operations, financial position or liquidity of the Company.

On September 30, 2008, the Company acquired certain assets and liabilities of Maximus Inc.'s Asset, Justice, and Education Solutions businesses ("MAJES") including certain long-term contracts that contained contingent liabilities that the Company believed were unlikely to exceed $16,000 in the aggregate. The contingent liabilities related to liquidated damages contractually available to customers for breaches of contracts by MAJES and for estimated damages available to customers for breaches of such contracts by MAJES where such contracts did not contain specified penalties. The contingent liabilities represented the difference between the maximum financial liabilities potentially due to customers less the amounts accrued in connection with the contracts assumed on acquisition. Beginning in February 2011, MAXIMUS Inc. ("Maximus") and a subsidiary of the Company, as a result of receiving a letter from a customer, initiated the dispute resolution process under the customer's contract. The customer alleged that the subsidiary of the Company and Maximus failed to provide the services and products required to be delivered under the contract. In December 2012, the subsidiary of the Company obtained a favorable arbitration ruling in the amount of $10,000 which was subsequently reduced in July 2013 to $6,000 by a court judgment. The July 2013 court ruling also resolved an additional claim filed by the customer alleging no contract existed between the parties. In September 2013 the customer initiated the appeals process in relation to the July 2013 court ruling. In September 2014 the customer and the subsidiary of the Company reached a settlement resulting in the customer making a payment in the amount of $3,800 and issuing a full release from further litigation on the matter. The proceeds of $3,800 has been recorded as Professional services revenue in the condensed consolidated interim statements of income. The remaining contingent liabilities related to the acquired MAJES contracts is $7,000.

In July 2012, a subsidiary of Constellation received a notice of reassessment for the 2004 taxation year from the Canadian tax authorities ("CRA") which increased taxable income of the subsidiary by approximately $20,000 relating to a gain on the sale of property between entities under common control. As a result of the notice of reassessment, the CRA has determined that the subsidiary owes approximately $6,000 in federal tax and interest and approximately $5,000 in provincial tax and interest. In order to appeal the reassessment, the subsidiary paid $8,000 in September 2012 representing 50% of the amount owing from the federal reassessment and 100% of the amount owing from the provincial reassessment. At this stage, the Company believes the proposed reassessment is without merit and is challenging the reassessment. In February 2013 the Company filed an appeal with the Tax Court of Canada. The Company believes that it has adequately provided for the probable outcome in respect of this matter and as such no additional provision has been recorded in these financial statements during the period. There is no assurance, however, that the Company's appeal will be successful and, if unsuccessful, the Company's future financial results and tax expense could be adversely affected. The $8,000 payment made in September 2012 has been recorded in other non-current assets, representative of the deposit on account.

(In thousands of U.S. dollars, except per share amounts and as otherwise indicated)

16. Changes in non-cash operating working capital

	$ (1,305)	$ 32,317	$ 7,785	$ (5,932)

17. Subsequent events

On October 1, 2014, the Company issued debentures (the “Debentures”) with a principal value of C$67,990 for total proceeds of C$64,591. The proceeds were used by the Company to pay down $57,763 of the TSS Acquisition Facility. The Debentures have a maturity date of March 31, 2040 (the “Maturity Date”). From and including the date of issue to but excluding March 31, 2015, the Debentures will bear interest at a rate of 7.4% per annum. From and including March 31, 2015 to but excluding the Maturity Date, the interest rate applicable to the debentures will be reset on an annual basis on March 31 of each year, at a rate equal to the annual average percentage change in the All-items Consumer Price Index during the 12 month period ending on December 31 in the prior year (which amount may be positive or negative) plus 6.5%. The Debentures will be redeemable in certain circumstances at the option of the Company or the holder.

On October 30, 2014 the Company declared a $1.00 per share dividend that is payable on January 5, 2015 to all common shareholders of record at close of business on December 17, 2014.

Subsequent to September 30, 2014, the Company acquired control of the shares of two entities for aggregate cash consideration of $11,877 on closing plus cash holdbacks of $2,452 resulting in total consideration of $14,329. The business acquisitions include companies catering to the Food services and Textiles & apparel markets, and are all software companies similar to the existing business of the Company. Both of the businesses will be included in the Company’s Private Sector segment. Due to the timing of these acquisitions completed subsequent to September 30, 2014, the Company is unable to provide additional disclosure as the accounting for these business combinations is incomplete.
