

The Agency of Health and Social Services for Montréal Québec selects PGGovern, a business unit of Constellation Software's Harris Subsidiary, as its mobile homecare solution provider

Toronto, Ontario, Canada, September 15, 2008 – Harris Computer Systems ("Harris"), a subsidiary of Constellation Software Inc. (TSX: CSU) is pleased to announce that the Agency of Health and Social Services for Montréal ("Montréal") has selected its PG Govern division's mobile homecare product suite for its Phase II regional pilot project for mobile homecare.

Montréal selected PGGovern's mobile homecare solution to improve the efficiency and the quality of services provided by its clinical professionals. Among the largest agencies in the province of Quebec, Montréal serves a territory of approximately 10 000 square kilometers and provides services to over 1,300,000 residents.

"PGGovern is extremely pleased to have Montréal as a client and partner. Montréal has a long and impressive history of providing quality service to its residents and we are excited to be a part of the Montréal initiative to drive further improvements in home healthcare. We look forward to a long and successful partnership with the Montréal, stated Daniel Desaulniers, General Manager for Harris' PGGovern Business Unit.

Based on the current implementation schedule, the PGGovern solutions are expected to go live in 2008.

About Harris:

Harris is a leading provider of utility customer information systems (CIS), financial management, revenue management, health care management and land management software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to public power and water markets as well as all levels of local government throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time.
