**Toronto, Ontario – September 3, 2009** - Constellation Software Inc. (“Constellation”) (TSX: CSU) today announced that its wholly-owned subsidiary, Harris Computer Systems (“Harris”), purchased the Resource Management (RM) Business from MediSolution Ltd. (“MediSolution”).

Total consideration for the transaction is approximately CDN\$30 million, subject to certain purchase price adjustments and claims on representations and warranties. As a result of the purchase, Harris will assume all the customers and employees relating to the financial management, human capital management, and business intelligence solutions suites. MediSolution will operate as a separate division of Harris from its existing facilities in Montreal, Laval, and Toronto. MediSolution provides tremendous market share and brand recognition in Quebec and an opportunity for growth within the rest of Canada."

MediSolution CEO Paul Lepage commented "Harris provides an excellent home for our customers and our employees. Harris has a proven track record of committing to the businesses it acquires – including continued investment in employees and product lines. The MediSolution leadership team is confident in the success of the RM Business under the leadership of Harris."

Daniel Desaulniers, General Manager of Harris' Quebec operations remarked "The RM Business provides its customers with a robust suite of products and value added services, and a solid track record of customer satisfaction.
