

Constellation acquires the assets of the Canadian Healthcare business of Ormed

Toronto, Canada, November 30, 2012 – Constellation Software Inc. (“Constellation”)(TSX:CSU), announced today that it has completed, through its wholly-owned subsidiary N. Harris Computer Corporation (“Harris”), the acquisition of the software technology and clients of the Canadian healthcare business of Ormed Information Systems Ltd. (“Ormed”).

Daniel Desaulniers, Group President of Harris Quebec and Healthcare, commented, “This acquisition allows us to significantly expand our healthcare business in Canada. The addition of the ORMED MIS suite improves our already successful array of products and services dedicated to this market. We are very pleased to welcome the new employees to our team who will be able to provide continuity to customers and who will contribute to the growth of our company”.

Chris Sherback, President and Chief Executive Officer of Ormed, commented, “Given the considerable consolidation that has taken place in the Canadian healthcare market, it is time that the software vendor community engaged in similar consolidation in order to better match the size of the organizations we serve. The sale of our Canadian business to Harris will create a strong business solution partner for the hospitals of Canada and allow Ormed to focus on our growth opportunities in the United States and abroad”.

About Constellation Software Inc.

About Ormed Information Systems

Incorporated in 1989, Ormed is a leader in the advancement of fully integrated and e-commerce enabled management information systems for the healthcare industry. From its early inception as a healthcare consulting firm in 1985, Ormed sought to embed its healthcare best practices into software in order to give its clients ready and affordable access to the tools necessary to run an efficient healthcare organization. Today, those same values drive Ormed's software and service enhancements to continuously improve on the business processes designed specifically for hospitals in the areas of supply chain management, finance, human capital management, decision support and systems management.
