Maryland Transit Administration Expands its Transportation Management System with Constellation Software's Trapeze Subsidiary

Toronto, Ontario, Canada, March 11, 2008 – Trapeze Software Inc. ("Trapeze"), a subsidiary of Constellation Software Inc. (TSX: CSU) and a provider of intelligent transportation systems (ITS) and mobile technologies is pleased to announce that it has signed a significant contract with the Maryland Transit Administration (MTA) of Baltimore, Maryland to expand its Trapeze transportation management solution.

A valued Trapeze customer, MTA has been using Trapeze technology for various aspects of its planning and analysis, routing and scheduling, and traveler information needs. The agency has now expanded its Trapeze enterprise solution to include a comprehensive operations management system for bidding, dispatch, and timekeeping, as well as an interface to the agency's Human Resources and Payroll systems.

In addition, MTA has selected Trapeze to provide an online trip planning solution to enable the traveling public to manage their trips with such capabilities as schedule look-up and itinerary planning.

The MTA has been providing public transportation to its area residents since 1830. As the agency continues to serve its citizens in the 21st century, their commitment to "old fashioned" customer service remains as timeless as ever.

About Trapeze Software
Trapeze delivers solutions that consider the full 360 degrees of passenger transport. Whether addressing the needs of a single department, an entire organization, or the community, Trapeze provides some of the most advanced software, intelligent transportation systems (ITS) and mobile technologies in the industry. Hundreds of government and commercial organizations across North America, Europe and Asia Pacific have turned to Trapeze to realize efficiencies, enhance the quality and scope of their services, and safely transport more people with less cost.
