

**Leipziger Verkehrsbetriebe (LVB) GmbH Upgrades Intelligent Transportation System with Trapeze Group, a Subsidiary of Constellation Software's Volaris Group**

**TORONTO, ON, JANUARY 10, 2013** – Constellation Software Inc. (TSX:CSU) today announced that Trapeze Group ("Trapeze"), a subsidiary of its wholly-owned subsidiary, Volaris Group Inc., has signed a significant contract with Leipziger Verkehrsbetriebe (LVB) GmbH to upgrade its intelligent transportation system.

The Trapeze solution for LVB includes an integrated operations control system as well as dynamic passenger information to assist the travelling public. The combined solution enables LVB to further enhance the efficiency of its tramway and bus operations and benefits passengers with shorter trip times and more accurate transfers.

LVB, the public urban passenger transport authority of the City of Leipzig, Germany, operates over 450 vehicles on 13 tramway and 61 urban and regional bus routes. The authority moves 135 million passengers annually in the larger Leipzig area.

**About Trapeze Group**

Trapeze delivers solutions that consider the full 360 degrees of passenger transport. Whether addressing the needs of a single department, an entire organization, or the community, Trapeze provides some of the most advanced software, intelligent transportation systems and mobile technologies in the industry. Hundreds of government and commercial organizations across North America, Europe and Asia Pacific have turned to Trapeze to realize efficiencies, enhance the quality and scope of their services, and safely transport more people with less cost.
