Constellation Software Inc. Comments on Corrected Short Position

TORONTO, ONTARIO--(Wednesday March 6, 2008) - Constellation Software Inc. (TSX:CSU) (“Constellation” or the “Company”) issued a further clarification of certain matters reported in the press relating to short positions in its shares.

After confirmation with the TSX, management wishes to clarify that the short position of approximately 6.7 million shares reported in the press was incorrectly attributed to the Company’s stock. The actual short position reported on the Company’s stock for the period ended February 29, 2008 was 2,977 shares, which remained unchanged from the period ended February 15, 2008.

About Constellation Software Inc.

Constellation Software is an international provider of market leading software and services to a number of industries across both the public and private sectors. The Company acquires, manages and builds vertical market software businesses that provide mission-critical software solutions to address the specific needs of its customers in those industries.
