

**The City of St. John's Newfoundland Selects MSGovern, a business unit of Constellation Software's Harris Subsidiary, as its Land and Revenue Management Solution**

**Toronto, Ontario, Canada, June 25, 2008** – Harris Computer Systems ("Harris"), a subsidiary of Constellation Software Inc. (TSX: CSU) is pleased to announce that the City of St. John's Newfoundland ("City") has selected its MS Govern division's Govern product suite as its revenue and land management solution..

The City selected MSGovern's property centric land and revenue management solutions to meet their assessment, tax and collection, permit and inspection, utility billing and eGovernment needs. Among the oldest cities in North America and Newfoundland's capital, St. John's serves a territory of approximately 500 square miles and provides services to over 100,000 citizens.

"MSGovern is extremely pleased to have St. John's as a client and partner. St. John's has a long and impressive history of providing superior service to their citizens and we are excited to be a part of the City's future success. We look forward to a long and successful partnership with the City", stated Craig Ross, General Manager for Harris' MSGovern Business Unit.

Based on the current implementation schedule, the Govern solutions are all expected to go live before the end of 2010.

**About Harris:**

Harris is a leading provider of utility customer information systems (CIS), financial management, revenue management and land management software solutions. Since 1976, Harris has focused on providing feature-rich and robust turnkey solutions to public power and water markets as well as all levels of local government throughout North America. Harris' focus is on creating long-term relationships with our customers and ensuring that we meet the changing needs of our customers over time.
