

Constellation Software Inc: US Department of Defense TRICARE Management Activity division awards Nutrition Automated Information System (AIS) contract to Computrition, Inc.

Chatsworth, CA, January 25, 2008 -- Computrition, Inc., a subsidiary of Constellation Software Inc. (TSX: CSU), and a leading developer of hospitality, food management and patient care automation, announced the selection of its Hospitality Suite software solution by the United States Defense Department for 44 TRICARE Management Activity facilities located worldwide.

Defense Medical Logistics Standard Support (DMLSS) conducted a thorough vendor review and determined that replacing their existing system with Computrition's Hospitality Suite solution would reduce overall expenditures, enhance adherence to United States Department of Agriculture (USDA) food standards, and better support patient safety and security requirements. Computrition's Hospitality Suite solution incorporates food operations and fully integrated nutrition and diet office management automation.

Headquartered in Falls Church, VA the TRICARE Management Activity division of the US Department of Defense is responsible for providing exceptional healthcare resources and services to enlisted and retired servicemen and women of the United States Armed Forces and their families. Computrition is honored to be selected as the supplier of choice.

About Computrition

Computrition, Inc. is the leading provider of fully integrated foodservice and nutrition management software systems in the hospitality and healthcare industries. With customers throughout the USA, Canada, and worldwide, Computrition provides a software solution designed to increase efficiency and productivity in the healthcare, hospitality, university, school foodservice, military and corrections industries.
